PROJECTS

Namaste Food *React.js, React Router, Tailwind CSS* Source Code

- Developed Namaste Food an online **food and restaurant discovery wesbite** made using React.js.
- Used **Swiggy's Live API** data to provide **real-time** restaurant and dishes information.
- Integrated a **Chatbot feature** utilizing **Botpress** to provide assistance within the application.
- Revamped UI with a captivating **Shimmer effect**, and a **search** for restaurant discovery.
- Employed **React Router** for client-side routing and **EmailJS** for real-time email notifications.

Typing Master *React.js, Firebase* Source Code

- Typing Master is a website made using ReactJS and Firebase, integrating **Google authentication**.
- Users can set their own **difficulty levels** dynamically changing number of words and time.
- It has a real-time tracking of **words per minute (WPM)** and **accuracy** for performance assessment.

BCA Blogs *React.js, React Router* Source Code

- Created a user-friendly **blogging platform** enabling easy **creation** and **publication** of personal content.
- Enhanced user engagement with a **Shimmer UI**, offering a visually pleasing **loading experience** for blog content.
- Managed blog data with a **JSON Server** backend for reliable storage and retrieval of posts and user content.
